

Product Information

Mini Cell Scrapers

Catalog Number: 22003

Unit Size: 10 sterile packs, 20 scrapers per pack

Storage and Handling

Store at room temperature.

Product Description

Sterile, polyethylene, disposable mini cell scrapers can be used to effectively harvest cells or cell lysates from 24, 48, and 96 well plates. They measure 3/16" (0.5 cm) wide and 2 3/8" (6 cm) long.

The scrapers are sterilized by ethylene oxide (EtO), but can also be autoclaved. The outer pouch has separate indicators for ethylene oxide (orange/yellow from EtO exposure) and steam/heat (turns black after autoclaving). The scrapers are not tested for DNase or RNase.
